Notice of Objection Period for the Patsey Marley Shrontz Roadway Improvements Project Uinta-Wasatch-Cache National Forest Salt Lake Ranger District Salt Lake County, Utah An Environmental Assessment (EA) and draft Decision Notice (DN)/Finding Of No Significant Impact (FONSI) is available for a 45-day objection period for a proposal from the Estate of JoAnne L. Shrontz for roadway improvements to approximately 710 feet of the existing Albion Basin Road (National Forest System Route (NFSR) 028) to improve access to the Estate's approved subdivision and parking structure on private lands. The Forest Supervisor, Dave Whittekiend is the responsible official. The EA and FONSI/DN is available for review under the "Decision" tab at the project website: <https://www.fs.usda.gov/project/?project=49583> This project is subject to objection pursuant to 36 CFR 218, Subparts A and B. Only those individuals or organizations who submitted timely specific written comments during a public comment period are eligible to file an objection (see 36 CFR 218.5). Issues raised in objections must be based on previously submitted timely, specific written comments regarding the proposed project unless based on new information arising after designated opportunities for public comment. If an objection is submitted on behalf of a number of individuals or organizations, each individual or organization listed must meet the eligibility requirement of having previously submitted specific written comments. Names and addresses of objectors will become part of the public record. Incorporation of documents by reference in the objection is permitted only as provided for at 36 CFR 218.8(b). Minimum content requirements of an objection [36 CFR 218.8(d)] include: 1) Objector's name and address with a telephone number if available; with signature or other verification of authorship supplied upon request; 2) Identification of the lead objector when multiple names are listed, along with verification upon request; 3) Name of project, responsible official, national forest/ranger district of project, 4) A description of those aspects of the proposed project addressed by the objection, including specific issues related to the proposed project; if applicable, how the objector believes the environmental analysis or draft decision specifically violates law, regulation, or policy; suggested remedies that would resolve the objection; supporting reasons for the reviewing officer to consider, and 5) A statement that demonstrates the connection between prior specific written comments on the particular proposed project or activity and the content of the objection, unless the objection concerns an issue that arose after the designated opportunity(ies) for comment. Written objections, including any attachments, must be sent via regular mail, fax, email, messenger service, or express delivered to Objection Reviewing Officer, USDA-Forest Service Intermountain Region, 324 25th Street, Ogden, UT 84401 within 45 days following the publication date of this legal notice in the Salt Lake Tribune. Contact the Region 4 Objections Coordinator directly at 801-625-5808 to coordinate hand-delivery. Electronic objections must be submitted in a format such as an email message, .pdf, .txt, .rtf, .doc, or .docx to objections-intermtn-regional-office@usda.gov. Faxed objections should be sent to (801) 625-5277. Objectors are responsible for ensuring that their objection is received in a timely manner (36 CFR 218.9). Timeliness must be determined by the following indicators: (1) The date of the U.S. Postal Service postmark for an objection received before the close of the fifth business day after the objection filing period; (2) The agency's electronically generated posted date and time for email and facsimiles; (3) The shipping date for delivery by private carrier for an objection received before the close of the fifth business day after the objection filing period; or (4) The official agency date stamp showing receipt of hand delivery. For emailed objections, the sender should receive an automated electronic acknowledgement from the agency as confirmation of receipt. If the sender does not receive an automated acknowledgment of receipt of the objection, it is the sender's responsibility to ensure

timely filing by other means. The publication date in the Salt Lake Tribune, which is the newspaper of record, is the exclusive means for calculating the start of the 45-day objection period. Persons wishing to object should not rely on information provided by any other source. Objections must be received or postmarked by the end of this 45-day objection period. Extensions of the objection period are not permitted. When the objection filing period has ended and responses have been made to all objections by the reviewing officer, the responsible official may make a final decision on the proposed project. The reviewing officer shall issue a written response to objectors within 45 days following the end of this objection filing period and may be extended up to 30 days per 36 CFR 218.26(b). When no timely objections are filed, a decision can be made on the fifth business day following the close of the filing period. Implementation may begin immediately following the signing of this decision notice pursuant to 36 CFR 218.12. For further information about the project, including documents and maps contact Charles Rosier at charles.rosier@usda.gov or 801-999-2159. SLT0014700
